XXVII LA JOLLA
ENERGY
CONFERENCE **2018**

La Jolla, California • May 23-24

La Jolla is a beautiful seaside area, known for its rugged coastline. Trails wind past its namesake pine trees and sandstone canyons in Torrey Pines State Natural Reserve, while the two courses at world-renowned Torrey Pines Golf Course offer picturesque fairways that hug the sea. La Jolla Cove counts unique caves and expansive ocean views, and the Shell Beach tide pools are home to anemones and crabs. Posh boutiques and waterfront restaurants dot walkable La Jolla Village.

This year the conference will include kayaking at La Jolla Cove and a guided nature hike at Torrey Pines State Reserve, the afternoon of May 22nd.
