Isaac Morales has almost 20 years of professional experience in cybersecurity, emerging technologies and international security. He has provided high-level advice to governments, international organizations, and the private sector on intelligence, complex cyber negotiations, crisis management, IT security policy, and regulatory issues.

Since January 2023, he has been Senior Director for Cybersecurity & Data Privacy, in FTI Consulting, leading this strategic practice for LATAM markets.

Prior, Isaac Morales occupied senior level positions in Mexico's Ministry of Foreign Affairs, including as the first General Coordinator for Multidimensional Security Issues. He represented Mexico to G20, INTERPOL, OECD, and FATF meetings, and contributed to launch the cyber-experts trilateral dialogue between Mexico, USA, and Canada. Mr. Morales was distinguished as member of the United Nations Group of Experts (GGE) to Advance Responsible Behavior in Cyberspace, and served as Chairperson of the Organization of American States' Working Group on Confidence-Building Measures in Cyberspace.

He has graduate studies in Mexico, Geneva and Spain; multiple teaching and research experience, and he also has specialized publications on security and cybercrime.
