

Geothermal across the Americas - A Three-Part Webinar Series exploring the potential of geothermal

We are pleased to launch this new webinar series that will examine the potential and outlook for geothermal energy across the Americas. The series will also consider the intersection of geothermal and lithium production and the global energy transition's widespread implications for public policy and investment.

Part I: Geothermal - as a game changer: heat, power and minerals*Panel framing questions*

- For many, geothermal offers an important source of low-carbon baseload heat and power. How do you view the role for geothermal as part of achieving decarbonization and Net Zero goals? Where do you envision geothermal to be in 2050?
- Electrification of transport is driving up demand for lithium. What and how extensive is the potential to harness geothermal brines for lithium and why it is so important particularly here in Southern California?
- Let's discuss other emerging and innovative uses of geothermal. How do you view the potential use of geothermal to produce green hydrogen? What about the use of geothermal power for bitcoin mining, which has received a great deal of attention in the case of El Salvador?
- How does geothermal become a game-changer?

Agenda (times are PDT)

- | | |
|--------|--|
| 8:00am | Welcome <ul style="list-style-type: none">▪ Jeremy Martin, Vice President, Energy & Sustainability, Institute of the Americas |
| 8:10am | Speaker introductions <ul style="list-style-type: none">▪ Cecilia Aguilon, Director, Energy Transition Initiative, Institute of the Americas |
| 8:15am | Panelist introductory remarks <ul style="list-style-type: none">▪ Trey Meckel, Founder and CEO, Monteverde Energy (video)▪ Chris Sladen, Chair/Founding Members, Geothermal Energy Advancement Association▪ Jonathan Weisgall, Vice President, Government Relations, Berkshire Hathaway Energy▪ Carlos Jorquera, President, Geothermal Council of Chile |
| 8:30am | Panel discussion and audience Q&A <ul style="list-style-type: none">▪ Moderated by: Cecilia Aguilon, Director, Energy Transition Initiative, Institute of the Americas |
| 9:00am | Close |
